I tried to pretend that I was okay but still I...
 On this good day, the day we broke up
 I tried to hold it in but I can't
On this bright and sunny day, on this good
 day
I'm in such pain because of you, I hurt, I cry
 and I miss you
I can't laugh so I stay alone to think of you
 No one knows why you left like that
 How you can live without me
 I can't forget you for a single day
 Every day, I only think of you
On this good day, the day we broke up
 I tried to smile but I can't
I tried to pretend that I was okay but still I...
 On this good day, the day we broke up
 I tried to hold it in but I can't
On this bright and sunny day, on this good
 day

ENGLISH

Like the late morning sunshine that come
 through the window
 And wakes me up You softly came to me
 When I open my eyes, I wonder if this is a
 dream
 If this is a happiness that I'm allowed to
 have
 I keep asking myself
 I love you like tomorrow won't come
 I love you like I'll never see you again
 Each of my days grow a new skin
 With love rather than scars
 Like the thick aroma of coffee on my lips
 At some point, you became my daily life
 Can I dare endure through a single day
 Without you?
 I can't even imagine
 I love you like tomorrow won't come
 I love you like I'll never see you again
 Each of my days grow a new skin
 With love rather than scars
 Tears keep falling inside because I'm so
 thankful
 Like I'll close my eyes when today passes
 Like there is no tomorrow
 I'll fill each minute,
 Each second with memories instead of tears
 I love you like tomorrow won't come
 I love you like I'll never see you again

I call out your name but the echoes have no
answer
Following the footsteps in the shallow
memories
I pace back and forth on the road you were
once at
I difficultly take a step
Trying to survive somehow
Before I meet you
I will keep walking, just wait
At the end of this road, this strange road
You will be looking for me as you cry
You'll be waiting for the faded and rusty love
At the end of this road, this strange road
I'll look for you, who is hiding and calling out
to me
I'll go to you, wherever you are
Just wait a little bit
At this strange place
I'll look for you, who is hiding and calling out
to me
I'll go to you, wherever you are
Just wait a little bit

 When you watched over my eyes

 It's your smiley face
 Now you're not here
